

Dear, Dr. Adams

When I first came for my Eye Exam, I couldn't see very well. Dr. Adams talked to me about vision therapy, and thought it was best for me. So me and my grandparent's talked about vision therapy. And so I started my vision therapy, and I've done this for several months now. PS: Your very nice Robin, Mr. Adams, and Mrs. Adams Vision classes are extraordinary fun and have helped me a lot.

Sincerely
K.A.

PS. THANK U For Everything.
